Public Service Agent	1 public build	2 public builds	3 public builds	Helped significantly to reshape a public district
Cleanup Crew	5 chunks restored	10 chunks	20 chunks	Terraformed a full public zone

What counts

Badges are checked and awarded by an admin.

Road	A pathway that connects two points along a clearly laid-out route. It should be wide enough for a horse to pass through without obstructions. The road itself must be mob-proofed using lighting or other methods.
Bridge	Spans a gap from end to end and connects to roads. It must be wide enough for a horse to cross and properly lit. The bridge should also have at least some decorative or design features.
Shop	If you build, maintain and stock a shop, you are considered a shopkeeper. Multiple people can run a single shop. The shop must be connected to the road network and located in the shopping district.
Highway	A road in the Nether, or a large, straight tunnel in the Overworld.
Restored chunk	A chunk that looks better than it did when it was first loaded. There should be no unusual holes, and some lighting should be added where needed.
